

If you wish to dispose of a BRAND electrical or electronic device, this must be done separately from unsorted municipal waste. This is indicated by the symbol of the crossed-out wheelie bin (see illustration). BRAND offers to dispose of your device with this symbol for you. To do this, please fill out the form for the return of devices and send it with the device to the address provided in the form. Please note the data privacy rules and delete all data on the device.

Attach the adjacent label so that it is clearly visible on your package.
